

NoAb BioDiscoveries, Inc. is awarded Good Animal Practice Certification from the Canadian Council on Animal Care

May, 2008

Toronto, Canada

NoAb BioDiscoveries Inc. announces that on April 24, 2008 the Canadian Council on Animal Care (CCAC) awarded the company's animal care and use program certification in accordance with the standards of GAP - Good Animal Practice.

"Being awarded GAP certification is a significant milestone for us, which highlights our company's commitment to excellence in our animal use and care practices and will reassure our partners of the consistent high quality of scientific research conducted at our facility," said Dan Lichtman, President, NoAb BioDiscoveries, Inc.

The CCAC is the national peer review agency responsible for setting and maintaining standards for the care and use of animals used in research, teaching and testing throughout Canada.

"The purpose of the Canadian Council on Animal Care is to act in the interests of the people of Canada to ensure through programs of education, assessment and persuasion that the use of animals, where necessary, for research, teaching and testing employs optimal physical and psychological care according to acceptable scientific standards, and to promote an increased level of knowledge, awareness and sensitivity to relevant ethical principles." - CCAC Mission Statement

NoAb BioDiscoveries is a discovery stage contract research organization, engaged in developing and providing novel tools for accelerating the drug discovery process. NoAb provides a broad suite of *In Vivo* drug disposition studies in rodents, *In Vitro* ADME assays, bioanalytical services, and DTE^x™ Gene Expression Profiling services, helping our clients to profile and shape their compounds into the best candidates for further development.

More information about NoAb BioDiscoveries' *In Vivo* pharmacokinetics services can be found at: <http://www.noabbiodiscoveries.com/html/invivo/invivo.html>
